Dodge PCM Unlock Mail-In • Pre-Shipping Checklist

1) Before you remove the PCM

Use basic safety + battery precautions. If you are unsure, use a qualified shop.

- ☐ Confirm vehicle requires unlock (most 2015+ Dodge/RAM/Jeep/Chrysler).
- ☐ Write down VIN + year/model/engine (5.7 / 6.4 / 6.2 / 3.6).
- ☐ Take 2 photos: engine bay overview + PCM location (before removal).
- ☐ Disconnect negative battery terminal before unplugging PCM connectors.

2) PCM removal & handling

- ☐ Remove PCM carefully (do not pry/force connectors).
- ☐ Do NOT open the PCM case.
- ☐ Protect pins/connectors: cover with clean plastic + tape (no residue on pins).
- ☐ Place PCM in anti-static bag (recommended) OR wrap in clean plastic before bubble wrap.

3) Packing checklist

- ☐ Wrap PCM with 2–3 layers of bubble wrap.
- ☐ Use a sturdy box (not an envelope).
- ☐ Add padding so PCM cannot move.
- ☐ Include a printed info sheet inside the box.
- ☐ Ship with tracking + insurance (recommended).

Info sheet to include in the box

- Full name + return address + phone
- Email for status updates
- Vehicle year / model / engine
- VIN (required)
- Tuning platform planned: HP Tuners / Other
- Notes (mods, goals, issues) — optional

Ship To (fill in from your website / order confirmation)
