ARTICLE ORIGINALE PLUS BAS.

**Voici comment la scène s'est probablement déroulée.**

Plus tôt cette année, lors de mes recherches sur le borax (tétraborate de sodium décahydraté), j'ai découvert que 20 Mule Team Borax semble avoir retiré les informations sur la pureté de son site web courant 2016. Depuis le lancement du site web jusqu'en 2015, les informations sur la pureté étaient facilement accessibles.

Vous trouverez ci-dessous des captures d'écran d'Archive.org, les informations pertinentes étant encadrées en rouge. J'ai également enregistré les URL des pages archivées ; cependant, lors de ma dernière vérification, ces liens ne fonctionnaient plus.

The Curious Substack est une publication financée par ses lecteurs. Pour recevoir les nouveaux articles et soutenir mon travail, pensez à vous abonner gratuitement ou à payer.

## 20 Mule Team® Borax

Product Info The Many Uses **FAQ**

**Do you have any tips for washing in hard water?**  
Believe it or not, more than 85% of homes in the U.S. have hard water. Clothes that are washed in hard water tend to look dingy and feel harsh. 20 Mule Team® Borax works well for washing clothes in hard water. ½ cup of 20 Mule Team® Borax will help soften water and prolong the longevity of clothes.

**Can I use 20 Mule Team with bleach?**  
Yes, 20 Mule Team and chlorine bleach can be mixed safely.

**How much 20 Mule Team do I use in the wash load?**  
Add ½ cup 20 Mule Team® Borax to each wash load along with the recommended amount of soap or detergent.

**Is Borax safe for septic systems?**  
Yes.

**What is the shelf life of the Borax?**  
The shelf life of 20 Mule Team is indefinite if stored in a dry place.

**Can Borax be used to kill ants or roaches?**  
The Dial Corporation cannot recommend Borax to kill ants or roaches. The EPA has not authorized 20 Mule Team as a pesticide.

**What are the ingredients in 20 Mule Team® Borax?**  
20 Mule Team is composed of sodium, boron, oxygen, and water. (The scientific name for borax is sodium tetraborate decahydrate.)

**Is 20 Mule Team® Borax Laundry Booster the same as boric acid?**  
No, Boric Acid is an acid formed from the reaction of borax with sulfuric acid or another mineral.

**How much Borax is in 20 Mule Team?**  
20 Mule Team® Borax is comprised of 99.5% pure borax, a naturally occurring mineral composed of sodium, boron, oxygen, and water. (The scientific name for borax is sodium tetraborate decahydrate.) The remaining 0.5% is composed of trace minerals.

**Can I use 20 Mule Team® Borax around my pets?**  
20 Mule Team® Borax can be used to deodorize pet odors. However, we recommend you keep 20 Mule Team® Borax out of reach of pets and children.

### What is Borax?

Borax is the common name for sodium tetraborate: a naturally occurring substance produced by the repeated evaporation of seasonal lakes.

20 Mule Team<sup>®</sup> Borax is 100% natural, and 99.5% pure (there is about a half of 1% of naturally occurring trace minerals). Once removed from the ground it is washed, dried, and boxed for consumers.

Borates, borax and boron compounds are with us throughout our lives. Families use it to soak and

## VERSION ORIGINALE EN ANGLAIS

### Why Did 20 Mule Team Borax Remove Product Purity Info From The Box in 2016?

[CURIOUS OUTLIER](#)

AUG 28, 2026

How the scene likely went down.

Earlier this year, while researching borax (sodium tetraborate decahydrate), I discovered that 20 Mule Team Borax appears to have removed purity information from its website sometime in 2016. From the website's launch through 2015, purity information was readily available.

Below are screenshots from Archive.org, with the relevant information outlined in red. I also saved the URLs for the archived pages; however, when I checked most recently, those links were no longer working.

The Curious Substack is a reader-supported publication. To receive new posts and support my work, consider becoming a free or paid subscriber.

## Frequently Asked Questions

### Do you have any tips for washing in hard water?

More than 85% of homes in the U.S. have hard water. Not sure if you have it in your area? Look at this [Hard Water Map](#) showing the concentration of calcium and magnesium ions in your water. Clothes that are washed in hard water tend to look dingy and feel harsh. 20 Mule Team<sup>®</sup> Borax helps soften hard water and boost your detergent to make it more effective. One half cup of Borax helps soften hard water and prolong the longevity of clothes.

### Can I use 20 Mule Team<sup>®</sup> Borax with bleach?

Yes, 20 Mule Team Borax and chlorine bleach can be safely used together in washing machines. Always read all safety information on each package.

### How much 20 Mule Team Borax do I use in the wash load?

Add a half cup of 20 Mule Team Borax to each wash load along with the recommended amount of soap or detergent.

### Is 20 Mule Team Borax safe for septic systems?

Yes, Borax is safe for septic tanks.

### What is the shelf life of the 20 Mule Team Borax?

The shelf life of 20 Mule Team Borax is indefinite if stored in a dry place.

### What are the ingredients in 20 Mule Team Borax?
